**\*\*\*Next CAM Meeting - Tuesday, April 8, 2014 @ 10:00AM, Caltrans\*\*\***

**Council on Access & Mobility (CAM)  
Membership Information**

**Name:** Judi Bonilla

**Organization:** We Get Around!

**Position:** Executive Director

I handle program development and teach travel training classes. In addition, I am the social media manager and community outreach representative.

I am a Gerontologist and Educator. I develop programs for adults age 65 and over based on the principles of successful aging. I have a strong interest in social media and technology. I am also an instructor for Oasis and teach at their various campuses including their Virtual Senior Center. In addition, I volunteer with several community and non-profit organizations in Carlsbad and San Diego.

We Get Around! is part of a Driving Retirement plan and an entry point for participants into volunteer driver programs. Helping students build a transportation plan is a priority in my organization.

Similar to other members, I have a strong commitment to help older adults age in place. I believe I can be an asset to the Council.

## **Council on Access & Mobility (CAM) Membership Information**

**Name:** Bruce P. McGrath

**Organization:** AAA Transportation

**Position:** Business advisor

My responsibilities include evaluating various different business opportunities that arise in the Company. These include expansion, new types of business, and reviewing different ways to expand the Company business.

Some of the specific areas include new business risk, capital expansion, customer assessment, compensation and Management process review.

I spent over 35 years in Engineering, Marketing and General Management in Electronic Equipment Companies. These companies serviced the following markets, Government, Transportation, Medical Equipment, Analytical equipment. In addition, my career has required both proposal generation and financial analysis.

As a provider of transportation for both the handicapped and mobile restricted, it is essential that we are current on the trends and requirements for this segment of transportation. In addition, as this industry evolves, we want to participate in shaping the direction of the growth of the Industry.

As one of the leading providers of Specialized Transportation in Southern California, we receive a great deal of exposure to the riders, brokers and government organizations in this segment. Because of this we want to contribute to the direction of the CAM Organization.

**Council on Access & Mobility (CAM)  
Membership Information**

**Name: VIVIAN RADAM**

**Organization: ACCESS TO INDEPENDENCE**

**Position: INDEPENDENT LIVING ADVOCATE**

I work at Access to Independence as an Independent Living (IL) Advocate who assists & provides personalized consumer driven services that include information and referrals, peer counseling & support, education on SSI, SSDI, Medi-Cal, Medicare & Special Needs Trust, independent living (IL) skills training, and advocating for the rights of people with disabilities to make their own choices. I am one of the board members for the Special Needs Trust Foundation.

I was born and raised in the Philippines and moved to the U.S. when I was 20-years old. I completed three years of college with a Bachelor of Science (B.S.) degree in Mathematics. I am certified phlebotomist and completed my Medical Administration program 2002. Then I worked as a medical technician at Cedar-Sinai Medical Center for ten years. Later I worked at Labcorp, as laboratory assistant, for five years. Currently, I am working at Access to Independence, for the past nine years, assisting people with disabilities. As an IL Advocate, I love what I'm doing. I am hard-working, enjoy working with people, an optimistic person, a team player, trustworthy, dependable and committed.

We collaborate and educate consumers to identify needs using public transportation. We refer consumers to other community agencies or service providers to ensure appropriate supports. I attend & conduct networking activities with other agencies, service providers, and organizations to ensure that consumer needs are being met. I maintain a high level of visibility within the North County service areas so that coordination and opportunities for persons with disabilities are at an optimum and the most important need is transportation.

I would like to join CAM because I work in a community driven organization that serves people with all types of disabilities and their families at all stages of life. As an IL Advocate, we are constantly assisting people with disabilities and transportation is one of the biggest challenges our consumer is facing. I am seeking new ways to support our consumers to achieve their IL goal(s) and that includes transportation. Access to Independence provides programs under four core services: Information & Referral, Independent living skills, self and systemic advocacy, and Peer Support. We also transition from school to work, from the nursing home to the community and from life without to a full and productive life.
